ENVIRONMENTAL SERVICES

Our environmental services program helps you lower costs, minimize disruption, and maintain a consistently healing environment.

Backed by deep expertise, we deliver measurable results aligned to your goals. Clean, welcoming spaces; comfortable temperatures; thoughtful amenities; and attentive staff all come together to elevate the resident experience and strengthen your community.

Aramark understands your challenges and provides reliable, repeatable performance driven by industry insight and proven innovation.

LAUNDRY & LINEN

Laundry and linen services affect costs, efficiency, and satisfaction across patients, residents, and nursing staff.

Ensuring bright, clean, fresh linens are available in the right quantities and at the right time is essential to quality care—and it's the standard delivered by Aramark's Linen Management Program.

We know how important it is for residents to have a trusted source for their personal linens. We focus on preserving dignity and enhancing quality of life.

FACILITIES MANAGEMENT

Aramark provides integrated facility and building management that boosts efficiency, safety, and overall building performance.

Our services include cleaning, grounds operations and maintenance, engineering solutions, and energy-efficient facility management, all tailored to create safer, well-run, cost-effective environments for senior communities.

RESIDENT ENGAGEMENT

Our proprietary program integrates smart technology with personalized engagement, enabling residents and families to share feedback in real time—whether it's tableside with a server and tablet or later from their own phone or computer.
